RE: Extension of Time Fee

I received an office response 3/26/07 regarding this patent application which is a divisional of a now issued patent. The examiner called me to inform me that my response was received May 2, 2007. My records indicate that I mailed my response 4/12/07 via first class mail. It should have gotten there before 4/26/07. I sent it certified mail and have enclosed the copy of shipment receipt. I no longer have the tracking number though. I am wondering if a mistake was not made. In any event I am submitting the fee for extension of time. I declare that I am a small business entity.

Most appreciatively,
